1/2

Contents

- 1 **Designing proactive assembly systems (ProAct) – Criteria and interaction between automation, information, and competence**
Fasth Å., Stahre J., Bruch J., Dencker., Lundholm T., Mårtensson L., Bruch J. – Sweden
- 15 **A Review of Creep Resistance of Nano - Scale Reinforcing Thermoplastics**
Siengchin S., Haag R., Sinpayakun P. – Thailand
- 21 **A Posteriori Error Estimation for Combined Adaptive Nodeless Variable Finite Element Method with Flux-Based Formulation**
Traivivatana S., Phongthanapanich S., Dechaumphai P. – Thailand
- 33 **Robust Inverse Dynamics and Sliding Mode Control for Inertial Stabilization Systems**
Sangveraphunsiri V., Malithong K. – Thailand
- 47 **A Control Technique for a 6-DOF Master-Slave Robot Manipulator System for Miniature Tasks**
Malithong K., Sangveraphunsiri V., Vongbunyong S. – Thailand
- 57 **Formability in Single Point Incremental Forming of Dome Geometry**
Rattanachan K., Chungchoo Ch. – Thailand
- 65 **Improving Body Shop Flexibility: Layered Build Process**
EL-Khalil R., Taraman K., Taraman S. – USA
- 71 **Kinematics and Control of A Resizable Cobot**
Suppapon C., Witaya W. – Thailand
- 85 **Finite Element Analysis of Reverse Engineered Internal Combustion Engine Piston**
Gudimetel P., Gopinath C.V. – Australia & India
