## Contents

---

- 1     **User kansei modelling and eco-design**  
*Bouchard C., Brissaud D. and Aoussat A. – France*
- 7     **Some recent developments and experiences with Rapid Manufacturing by indirect means**  
*Singamneni S. and Diegel O. – New Zealand*
- 15    **Repair and Manufacture of High Performance Products for Medicine and Aviation with Laser Technology**  
*Balazic M., Milfelner M. and Kopac J. – Slovenia*
- 23    **Manufacturing of Porous Polyethylene Ocular Implant by Three Dimensional Printing**  
*Suwanprateeb J., Wasoontarat K., Suvannapruk W., Leelapatranurak K., Wanumkarng N. and Sintuwong S. – Thailand*
- 29    **Prediction of Weld Quality in Plasma Arc Welding using Statistical Approach**  
*Siva Prasad K., Srinivasa Rao Ch. and Nageswara Rao D. – India*
- 37    **Applying Genetic Algorithms for Inventory Lot-Sizing Problem with Supplier Selection under Storage Space**  
*Woarawichai C., Kullpattaranirun T. and Rungreunganun V. – Thailand*
- 47    **The Improvement for Optimization of Head Stack Assembly (HSA) Assembling Process by Using the Virtual Reality 3D Simulation Model**  
*Dokmai A. and Kengpol A. – Thailand*
- 57    **A PC-Cluster based Multi-Camera System for Real-Time Multiple Objects Tracking**  
*Bamrunghai P. and Sangveraphunsiri V. – Thailand*
- 65    **Visual Tracking Control for Inertial Stabilization System**  
*Sangveraphunsiri V. and Malithong K. – Thailand*
- 77    **QFDE Combined with TRIZ Framework to Formulate and Respond to Functional Design for a High Temperature Machine (HTM).**  
*Butdee S. and Trakunsaranakom C. – Thailand*
