## Contents

---

- 1 **A CAM controlled machine, one step to make machining as easy as printing**  
*Didonato A., Reader L., Marin J., Naksangchun N., Nguyen D. N. and Vignat F. – France*
- 9 **Setup Time Reduction in an Automotive Battery Assembly Line**  
*Deros B.M., Mohamad D., Idris M.H.M., Rahman M.N.A., Ghani J.A. and Ismail A.R. – Malaysia*
- 15 **Integrated Aggregate Production and Marketing Promotion Planning under Uncertainty: A Case Study**  
*Yenradee P., Predawut S., Rungmanochai P. and Eamcharoenying W. – Thailand*
- 29 **Application of Dilatometry Testing and FE Simulation for Hot Forging Process**  
*Uthaisangsuk V., Apichat S. and Chettaisong T. – Thailand*
- 37 **Genetic Algorithm Based Optimization of Material Removal Rate of Abrasive Waterjet Cutting of Polymer Composites**  
*Pankaj Balkrishna Tambe and Mukul Shukla – India*
- 43 **Improving Product Design through Rapid Prototype as Design**  
*Diegel O., Singamneni S., Reay S. and Withell A. - New Zealand*
- 49 **The Design of a Forecasting Support Models on Demand of Durian for Export Markets by Time Series and ANNs**  
*Udomsri N., Kengpol A., Ishii K. and Shimada Y. - Thailand& Japan*
- 67 **Model of Long Term Electricity Generation Expansion Planning in Thailand by Load Demand Forecasting**  
*Phupha V., Rungreungamun V. and Pimapunsri K. – Thailand*
