

# AIJSTPME

ASIAN INTERNATIONAL JOURNAL OF SCIENCE AND TECHNOLOGY  
in Production and Manufacturing Engineering

Vol. 4, No.3, JULY - SEPTEMBER 2011 ISSN : 1906 - 151X

**GUEST EDITORS** : Frédéric VIGNAT  
*"Variability and quality management"*

---

## Contents

---

- 1 **Evaluation of different methods in quantification of manufacturing defects**  
*Bui Minh Hien., Sergent A. and Villeneuve F.- France*
- 13 **Critical Success Factors for six Sigma Deployment in Manufacturing Companies in Malaysia**  
*Baba Md Deros., Norani Nordin., Lim Ah Wai and Mohd Nizam Ab Rahman. -Malaysia*
- 25 **The APTA method for the tolerance analysis of products – comparison of capability-based tolerance and inertial tolerance**  
*Gayton N., Beaucaire P., Duc E. and Lemaire M. -France*
- 39 **A New Approach for the Effectiveness of Coaxiality Tolerance Verification**  
*Kaisarliis G., Provatidis C. and Sfantsikopoulos M. – Greece*
- 51 **Reconstruction of Planar Cam Profile Function and its Follower Displacement using B-Spline Curve based on Inverse Subdivision Method and Theory of Contact Relations – Application to Cam Mechanism of Oscillating Follower with Roller**  
*Le C. and Nguyen Tan K. – Vietnam*
- 59 **Variations and Clearance Computation in Overconstrained Mechanisms**  
*Fäida Mhenni., Philippe Serré., Abdelfattah Mlika., Lotfi Romdhane. and Alain Rivière. – France*
- 71 **Development of Visual Inspection for Plastics using Image Processing Technique**  
*Patoommakesorn K., Tearwattanarattikal P. and Siangdung W. – Thailand*
- 83 **Defining acceptance criteria on parts in order to maximise the use of functional condition domain**  
*Van Hoecke A. - France*
