Contents

- 1 **Developing a Model of an Intelligent Control Technique on a Manufacturing Batching Process**
Naidoo P. – South Africa
- 7 **A theoretical analysis for tube bulge forming using elastomer medium**
Ramezani M. and Neitzert T. – New Zealand
- 21 **Effect of welding speed on weld quality characteristics of pulsed current micro plasma arc welded AISI 304L Sheets**
Siva Prasad K., Srinivasa Rao Ch., Nageswara Rao D. and Phani Kumar S. – India
- 29 **New Lean Alloy Alternatives for 300 Series Stainless Steels – a Corrosion Perspective**
Gümpel P., Leu F., Burkert A. and Lehmann J. – Germany
- 43 **Lean Manufacturing Implementation in a Plastic Molding Industry**
Rosnah M.Y. and Othman A. – Malaysia
- 53 **Production of Aluminium AC8H/Al₂O_{3p} Coated Metal Matrix Composites by Stir Casting Route**
Anne Z., Andika AI. and Maman KA. – Indonesia
- 59 **Properties of Tough Skinned Vegetable-Pumpkin Tissue**
Shirmohammadi M., Yarlagadda P. and Gudimetla P. – Australia
- 65 **Numerical Studies on Residual Stress and Strain Distribution in Thick-welded Plate**
Chand R. R., Kim I. S., Lee J. H., Jung S. M. and Lee J. P. – South Korea
- 73 **Characterisation of Thermal Barrier Coating on Piston Crown for Compressed Natural Gas Direct Injection (CNGDI) Engines**
Helmisyah A.J., Ghazali M.J. and Abdullah S. – Malaysia
- 79 **A Fuzzy Inference System Approach to Resource Capability Assessment**
Xu J., Xu X. and Xie S. Q. – New Zealand
