Proceedings of the Eight William R. Allen Symposium
in Fisheries Management
Species Interactions in Marine Communities

William R. and Lenore Mote Eminent Scholar (2010).....	1
Species interactions in marine communities: the invisible fabric of nature Peter J Auster, James A Estes, and Felicia C Coleman.....	3
Exploring the consequences of species interactions through the assembly and disassembly of food webs: a Pacific-Atlantic comparison James A Estes, Robert S Steneck, and David R Lindberg.....	11
Ecosystem flips, locks, and feedbacks: the lasting effects of fisheries on Maine's kelp forest ecosystem Robert S Steneck, Amanda Leland, Douglas C McNaught, and John Vavrinec.....	31
Fluctuations in range and abundance of snow crab (<i>Chionoecetes opilio</i>) from the eastern Bering Sea: what role for Pacific cod (<i>Gadus macrocephalus</i>) predation? Julian Burgos, Billy Ernst, David Armstrong, and JM (Lobo) Orensanz.....	57
Degradation of surf-fish foraging habitat driven by persistent sedimentological modifications caused by beach nourishment Lisa M Manning, Charles H Peterson, and Stephen R Fegley.....	83
Predation on prerecruits can delay rebuilding of depleted cod stocks Jeremy Collie, C��il��n Minto, Boris Worm, and Richard Bell.....	107
Parasites in marine food webs Kevin D Lafferty.....	123
Building a fisheries trophic interaction database for management and modeling research in the Gulf of Mexico large marine ecosystem James D Simons, May Yuan, Cristina Carollo, Maru Vega-Cendejas, Thomas Shirley, Maria LD Palomares, Peter Roopnarine, Luis Gerardo Abarca Arenas, Ana Iba��ez, Jeff Holmes, Cristina Mazza Schoonard, Rachel Hertog, Dave Reed, and Jorrit Poelen.....	135
Trophic modeling of shortfin mako (<i>Isurus oxyrinchus</i>) and bluefish (<i>Pomatomus saltatrix</i>) interactions in the western North Atlantic Ocean William J Harford.....	161
The geography and body-size dependence of top-down forcing in New England's lobster-groundfish interaction Richard A Wahle, Curtis Brown, and Kevin Hovel.....	189
The challenges of evaluating competition among marine fishes: who cares, when does it matter, and what can one do about it? Jason S Link and Peter J Auster.....	213
Jellyfication of marine ecosystems as a likely consequence of overfishing small pelagic fishes: lessons from the Benguela Jean-Paul Roux, Carl D van der Lingen, Mark J Gibbons, Nadine E Moroff, Lynne J Shannon, Anthony DM Smith, and Philippe M Cury.....	249
How do fishing and environmental effects propagate among and within functional groups? Marie-Jo��lle Rochet, Jeremy S Collie, and Verena M Trenkel.....	285
Using experiments and models to untangle direct and indirect effects: is there hope for understanding fishery systems? Joseph Travis and Katie E Lotterhos.....	317
An experimental test of multi-species Markov models: are barnacles long-term facilitators of mussel bed recovery? J Timothy Wootton.....	337
Modeling a regime shift in a kelp forest ecosystem caused by a lobster range expansion Laura K Blamey, ��va E Plag��nyi, and George M Branch.....	347
Behavior webs of piscivores at subtropical live-bottom reefs Peter J Auster, Laura Kracker, Victoria Price, Eric Heupel, Greg McFall, and David Grenda.....	377
Fitting the puzzle-modeling species interactions in marine ecosystems ��va Elizabeth Plag��nyi.....	397
