## ARTICLES

|                                                                                                                                                                                                                                                                                        |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Stable isotope differences between blue marlin ( <i>Makaira nigricans</i> ) and striped marlin ( <i>Kajikia audax</i> ) in the southern Gulf of California, Mexico<br>Yassir Torres Rojas, Agustin Hernandez Herrera, Sofia Ortega-Garcia, and Michael Domeier.....                    | 421 |
| Rhizophytic algal communities of shallow, coastal habitats in Florida: components above and below the sediment surface<br>Laura A Bedinger, Susan S Bell, and Clinton J Dawes.....                                                                                                     | 437 |
| Identification of leptocephali representing four muraenid species from the western North Pacific, based on morphometric and mitochondrial DNA sequence analyses<br>Atsushi Tawa, Midori Kobayakawa, Taku Yoshimura, and Noritaka Mochioka .....                                        | 461 |
| Effectiveness of size limits and bag limits for managing recreational fisheries: a case study of the Gulf of Mexico recreational gag fishery<br>Jakob C Tetzlaff, William E Pine III, Micheal S Allen, and Robert NM Ahrens .....                                                      | 483 |
| Diversity and community structure of decapod crustaceans at hydrothermal vents and nearby deep-water fishing grounds off Kueishan Island, Taiwan: a high biodiversity deep-sea area in the NW Pacific<br>Teng-Wei Wang, Tin-Yam Chan, and Benny KK Chan.....                           | 505 |
| Annual and long-term movement patterns of spiny lobster, <i>Panulirus marginatus</i> , and slipper lobster, <i>Scyllarides squammosus</i> , in the Northwestern Hawaiian Islands<br>Joseph M O'Malley and William A Walsh.....                                                         | 529 |
| Diel vertical movements of a scalloped hammerhead, <i>Sphyrna lewini</i> , in the northern Gulf of Mexico<br>Eric R Hoffmayer, James S Franks, William B Driggers III, and Paul W Howey.....                                                                                           | 551 |
| Evaluation of radio telemetry to study the spatial ecology of checkered puffers ( <i>Sphoeroides testudineus</i> ) in shallow tropical marine systems<br>Jason D Thiem, Charles Hatry, Jacob W Brownscombe, Felicia Cull,<br>Aaron D Shultz, Andy J Danylchuk, and Steven J Cooke..... | 559 |
| Microhabitat associations of late juvenile Nassau grouper ( <i>Epinephelus striatus</i> ) off Little Cayman, BWI<br>Emma F Camp, Kathryn E Lohr, Savanna C Barry, Philippe G Bush,<br>Charles A Jacoby, and Carrie Manfrino .....                                                      | 571 |
| Assessing the role of commercial aquaculture in displacing mangrove forest<br>Stuart Hamilton.....                                                                                                                                                                                     | 585 |

## CORAL REEF ARTICLES

|                                                                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Increased algal dominance despite presence of <i>Diadema antillarum</i> populations on a Caribbean coral reef<br>Elizabeth A Lacey, James W Fourqurean, and Ligia Collado-Vides..... | 603 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|

## PORTRAITS OF MARINE SCIENCE

|                                                                                                                                                            |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Gaining ground—Cleaning with mesenterial filaments by the cold-water coral <i>Desmophyllum dianthus</i> ?<br>Carin Jantzen and Gertraud Maria Schmidt..... | 503 |
| Aggregated settlement of <i>Pocillopora damicornis</i> planulae on injury sites may facilitate coral wound healing<br>TC Toh and LM Chou.....              | 583 |

## NOTES

|                                                                                                                                                                                                                                           |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Assessing the utility of a portable pocket instrument for estimating seasonal mangrove leaf chlorophyll contents<br>Francisco Flores-de-Santiago, John M Kovacs, and Francisco Flores-Verdugo.....                                        | 621 |
| Bidirectional sex change in seven species of <i>Priolepis</i> (Actinopterygii: Gobiidae)<br>Hisaya Manabe, Katsuya Toyoda, Kaori Nagamoto, Shin-ichi Dewa,<br>Makoto Sakurai, Kiyoshi Hagiwara, Akihiko Shinomiya, and Tomoki Sunobe..... | 635 |
| Description of reared preflexion gray triggerfish, <i>Balistes capriscus</i> , larvae from the northern Gulf of Mexico<br>Carrie M Simmons and Stephen T Szedlmayer .....                                                                 | 643 |

## BOOK REVIEW

|                                                                                     |     |
|-------------------------------------------------------------------------------------|-----|
| Coral reefs of Florida & the Caribbean by George Warner<br>Brittany Huntington..... | 653 |
|-------------------------------------------------------------------------------------|-----|
