# International Journal of GEOGRAPHICAL INFORMATION SCIENCE

Volume 28 Numbers 7–8 July–August 2014

## Contents

### Articles

- A systematic sensitivity analysis of constrained cellular automata model for urban growth simulation based on different transition rules  
X. Li, X. Liu and L. Yu 1317
- Predictive modelling of gold potential with the integration of multisource information based on random forest: a case study on the Rodalquilar area, Southern Spain  
V.F. Rodriguez-Galiano, M. Chica-Olmo and M. Chica-Rivas 1336
- A bidirectional path-finding algorithm and data structure for maritime routing  
D. Tsatcha, É. Saux and C. Claramunt 1355
- Propagation of vertical and horizontal source data errors into a TIN with linear interpolation  
L. Fan, J. Smethurst, P. Atkinson and W. Powrie 1378
- Knowledge diffusion from GIScience to other fields: the example of the usage of weighted surface networks in nanotechnology  
C.W. Wolf 1401
- Exploring the relationship between street centrality and land use in Stockholm  
Y. Rui and Y. Ban 1425
- Enriching user profiles using geo-social place semantics in geo-folksonomies  
E. ElGindy and A. Abdelmoty 1439
- Optimizing an index with spatiotemporal patterns to support GEOSS Clearinghouse  
J. Xia, C. Yang, Z. Cui, K. Liu and Z. Li 1459
- A non-dominated sorting genetic algorithm for the location and districting planning of earthquake shelters  
F. Hu, S. Yang and W. Xu 1482
- Total locational surplus for facility users distributed continuously along a network  
A. Masuyama 1502
- Book Reviews 1523

### Articles

- Species distribution and diversity, habitat selection and connectivity: introduction to the Third Special Issue on Spatial Ecology  
S.W. Laffan, A.K. Skidmore and J. Franklin 1527
- Scale dependence in habitat selection: the case of the endangered brown bear (*Ursus arctos*) in the Cantabrian Range (NW Spain)  
M.C. Mateo Sánchez, S.A. Cushman and S. Saura 1531
- Delineating generalized species boundaries from species distribution data and a species distribution model  
M.P. Peters, S.N. Matthews, L.R. Iverson and A.M. Prasad 1547
- Effects of climate change and urban development on the distribution and conservation of vegetation in a Mediterranean type ecosystem  
B.J. Beltrán, J. Franklin, A.D. Syphard, H.M. Regan, L.E. Flint and A.L. Flint 1561
- Benefits and drawbacks of two modelling approaches for a generalist carnivore: can models predict where Wile E. Coyote will turn up next?  
A.J. McCue, M.J. McGrath and Y.F. Wiersma 1590
