Volume 7 Number 1 (January-june) 2013

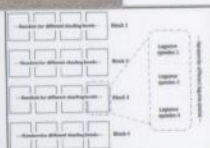

Mortality Rate Model due to Transportation Accidents in Thailand

Wattanavadee Sriwattanapongse, Sukon Prasitwattanaseree,
Surin Khanabsakdi and Supreeya Wongtra-ngan

Evaluation of the Shade Tolerance of Moth Bean (*Vigna aconitifolia*) and Two Tropical Legume Species

Pantipa Na Chiangmai, Yupa Pootaeng-on and Thanakrit Khewaram

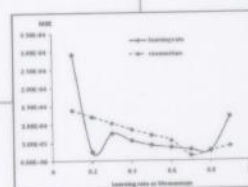

Odds Prediction of Drought Category Using Loglinear Models Based on SPI in the Northeast of Thailand

Wisoot Salee and Veeanun Pongsapukdee

Principal Component Analysis Coupled with Artificial Neural Networks for Therapeutic Indication Prediction of Thai Herbal Formulae

Lawan Sraithaphut, Samart Jamrus, Suthikarn Woothianusorn
and Onoomar Toyama

Usage of Chitosan in Thai Pharmaceutical and Cosmetic Industries

Rapeepun Chalongsuk and Namfon Sribundit
