Science and Technology Journal

Volume 7 Number 2 (July-December) 2013

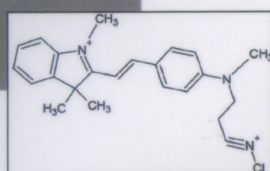

Double Bootstrap-t One-sided Confidence Interval for Population Variance of Skewed Distributions

Wararit Panichkitkosolkul

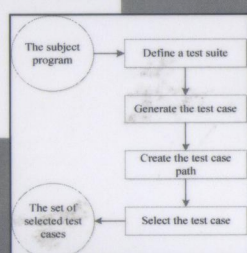

Diversity of Hyperthermophilic Bacteria Belonging to Order Thermotogales Thriving in Three Hot Springs in Thailand: Resources of Genes Encoding Thermostable Enzymes

Porranee Keawram and Wirojne Kanoksilapatham

A Study of Adsorption of an Organic Colouring Matter on Powdered Natural Plant Material

Kiran V. Mehta

Test Case Based Selection for the Process of Software Maintenance

Adtha Lawanna
